

- \* There is no hard evidence that cell phone use doesn't interfere with navigational instruments.
- \* Cell phone use would enable terrorists to coordinate a plan of action more effectively.
- \* The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations.
- \* It would make an already tense cabin environment even more stressful.

Thanks for taking the time to protect our workplace.
